

WASTE MALT SACK RECYCLING SPECIFICATION

To enable the bags to be recycled:

Must be as clean as possible - dirty sacks may be subject to a disposal charge

LDPE plastic film liners are acceptable

The bags must be securely fastened to the pallet to allow for safe handling and transport

Must be empty of residues, dust of other contaminants

Fold the sacks and stack them on top of each other onto a pallet

Unstable loads or poorly stacked bags pose a risk to others during handling and transport

Labels are acceptable
